The figure is a scatter plot with a linear regression line and a confidence interval. The x-axis is labeled with time intervals from 12:00 to 18:00 in 30-minute increments. The y-axis is unlabeled but has tick marks. The data points are black dots. A solid blue line represents the linear regression, showing a negative correlation. A gray shaded area around the blue line represents the confidence interval. The data points are scattered around the line, with some points showing more deviation than others.
