Incubation Number 20 -- 2023-08-07 11:30

The figure is a scatter plot with a linear regression line and a confidence interval. The x-axis is labeled with times from 17:30 to 23:30 in 30-minute increments. The y-axis is labeled with numbers from 0 to 10. The data points are black dots. A solid blue line represents the linear regression, and a grey shaded area around it represents the confidence interval. The data points are scattered around the line, with a notable cluster of points at the bottom left (low number of people, early time) and a cluster of points at the top right (high number of people, late time).
